(c) **The Overall Mark (OM)**
In making a judgment on OM, the examiner must consider the quality of the answer in the light of the set question.

The total awarded for CM and OM must be shown separately e.g. $5+2 = <7$

(d) Total the marks awarded to each part of the question in the right-hand margin thus: four marks to be shown as $<4$. Then proceed to mark the remainder. Put the grand total for the question, for example (30), on the left-hand margin near the question number.

(e) Read all the answers even excess, repeated or cancelled. The answer gaining most marks is accepted, within the rubrics of the examination paper.
