

# Team Teaching Experience.

## Facilitating effective collaboration among teachers.

*Alison Maguire. Mullingar Community College.*

### Benefits of Team Teaching.

- Assessment for learning has a greater focus and the feedback to students is much more consistent.
- Classroom management improves.
- Different methodologies and approaches are shared between teachers; this ensures students are exposed to as much active learning methods as possible.
- Team teaching promotes an inclusive learning environment, where every student is given an equal opportunity.

### Challenges.

- One of the main barriers to this practice is not having enough time to plan.
- Trying out new methods collaboratively may not work out as planned. The challenge here is to have patience and the motivation to try it out again.

My work gets more attention when there are two of my teachers in the room.  
-3<sup>rd</sup> year student.

Two teachers helps me stay focused.  
-1<sup>st</sup> year student.

Team teaching can be present in our classrooms in many different ways.
