

Consolidation of Fractions: Games

Fraction Dice Game

Place all the pieces onto the grids before playing.

Pupils/teams take turns throwing the die and they remove the corresponding fraction piece from the board. The aim is to be the first pupil/team to empty their board completely. If a piece cannot be removed, the pupil/team misses a turn.

The game can also be played in reverse, where the teams fill the empty grid with fraction pieces.

Fish for Fractions

This is a game for three players/pairs/teams.

The 63 fraction cards are placed face down on the table. Each player takes a turn to select a card.

Each player selects a challenge card, either **Less than 1/2**, **Between 1/2 and 1** or **More than 1**.

The aim of the game is to find and collect as many cards as possible that correspond to the player's/pair's/team's challenge card.

Play continues until:

a. A player/pair/team has correctly collected a target number of cards, for example, 8 cards. They are declared the winner.

Or

b. All cards have been collected. The winner is the player with the most cards.

Or

c. The player with the most cards collected after a fixed period of time is declared the winner.
