

# DEMONSTRATION V's OBSERVATION

## AIM

To investigate how much information is retained during experimentation

## FEEDBACK

- Demonstrators motivated by pressure to perform
- Demonstrators shocked by results
- Observers not impressed by results

## METHOD

- Groups of 4
- 2 Observers and 2 Demonstrators
- Carried out food tests
- Students tested
- Students re-tested

## CONCLUSION

- All students need to participate in experimentation to achieve success
