

Exploring a Theme

<p>1. What is the general message of the text? Give at least 3 points.</p>	<p>2. Pick a selection of useful phrases that you could use in the future...</p>
<p>3. What did you find interesting about the text?</p>	<p>4. How would we feel if it was us...?</p>

Steps to Success:

Step 1. Get into groups of four and assign roles (you may want to use role cards here).

Step 2. Discuss the four areas and record points on graphic organiser.

Step 3. Take a picture of your group's graphic organiser and move tables. Discuss with your second group what you learned and explored with your first group. Record your shared thinking.

This approach will result in a more informed and expansive response to the text(s). You could use your 'notes' from the graphic organisers to engage in an opinion piece!
