# Physical Education Primary Workshops

## COOPERATIVE CHALLENGES & ORIENTEERING *in the Outdoor and Adventure Strand*

This workshop will explore cooperative challenges and orienteering in the PE curriculum. These activities which are mainly non-competitive, offer alternative avenues for pupil achievement and encouragement to adopt a healthy lifestyle based on an enjoyment and appreciation of the outdoors. Activities explored at the workshop will include Maths Trails, language based tasks, scavenger hunts, cooperative games, and activities for the O&A strand that can support the development of Physical Literacy using the PDST Move Well, Move Often Resource. The activities require minimal equipment and resources and are perfect for PE provision this term and can also be done indoors if necessary!

**This will be a fun, interactive, exciting workshop so  
please dress appropriately for activity.**
