

# Team Teaching with gifted students for Key Skills

*'The best way to learn something is to teach it. In other words, whoever explains learns' Sousa (2006)*

**GARRY SIMPSON PME, TEL: 086 8204663**

## ADVANTAGES

- Team Teaching with qualified teachers is often not possible but gifted students are a readily available resource in every classroom!
- Students learn more by teaching others as shown by the largest area of Learning Pyramid.
- Other students learn more from their peers through Cooperative Learning. Vygotskii (1978)
- Helps to develop the Key Skills of 'Working With Others', 'Communicating' and 'Being Creative'.

## TEAM TEACHING AWARDS FOR STUDENTS

We encouraged gifted students to 'Team Teach' their peers by creating 'Peer Teaching' awards with gift voucher prizes!

Students who are Team Teachers also receive the highest grades as shown by the largest area on The Learning Pyramid.

We can recruit gifted students as our Team Teachers to develop the Key Skills of 'Working With Others' & 'Communicating' and to 'Develop Good Relationships' and appreciate the value of team work and Cooperative Learning!
