

# Hundredth Wheels

D2. Express tenths, hundredths and thousandths as fractions and decimals

Working with a partner, can you show the following on the Hundredth Wheel:

- Halves
- One Quarter
- Two Thirds
- $3/10$  in Yellow. What fraction is shown by the other colour?
- $1/10$  in Yellow. What fraction do you need to complete the wheel?
- $40/100$  in Green. Write this using a decimal point.
- $5/10$  in Green. Represent this fraction on an empty number line
- Compose three questions to ask the other pairs in your group.
