

Latin for Beginners

This in-service is aimed at non-Latin teachers who would like to learn Latin. Why not “*Carpe Diem*” and start learning Latin now.

This in-service will introduce you to Latin and show how Latin can be taught by non-specialist Latin teachers. Latin enriches English and is a great foundation for other languages.

Facilitators will introduce participants to the following Latin courses; the Cambridge Latin Course, Latin for the New Millennium and Graeculus.

They will demonstrate teaching methodologies and explore the resources available to support and enhance teaching and learning.

A strong emphasis will be placed on etymology, active learning and Latin for literacy.

Participating teachers will leave with resources and ideas which they can use for teaching First Year and Transition Year modules.

Please note that this in-service is open to any teacher who would like to learn Latin.
