

Student Feedback

I think that we learn more because if you have a question you can ask one of the teachers while the other does something else.

I like getting two teachers' opinions on something. It really helps your learning and understanding.

If you are stuck on something and don't understand it when your teacher explains it to you, it is good to get a slightly different explanation that may suit your way of thinking better.

I think have two teachers was really good fun and we got more work done!

I like having two teachers because sometimes they have different points of view which make English more interesting. They are also competitive which is fun for debates etc.

Easier facilitation
of group work

Allows
differentiated
teaching
strategies

Support for
SEN students

Shared
workload

Generation of
new ideas and
teaching
methods
